

The Great Empowerment

Step Into Leadership and Elevate Your Potential

FRI., APR. 29, 2022 | 11AM - 6PM (EDT) | 11 WORKSHOPS | 4 TRACKS | COUNTLESS CONNECTIONS

Sponsored by:    

API Women face a double-paned glass ceiling when it comes to career advancement.

Did you know that API women are:

- Less likely to have supervisory responsibilities or reach executive levels than other women of color?
- Less likely to be viewed as leaders in professional settings?
- More likely to find their cultural and familial values at odds with successfully navigating American corporate culture?

Join 350+ Asian Women Professionals and Allies for our second Women's Leadership Conference. Session topics were specifically chosen with direct feedback from Asian women in the workplace. Choose from 11 workshops across 4 tracks to select the sessions that speak to your personal goals... plus virtual focus circles to encourage meaningful conversations and build community through your professional network.

Testimonials

This event is just what I needed to feel re-energized, inspired, and motivated as an Asian American woman who is an engineering manager in corporate America.

Emmylou Mosley
Huntington Ingalls Industries

This was an amazing event, thank you to all those involved! The platform was easy to use, all the sessions were smooth, and people were ready and engaged.

Monika Narula
Northrop Grumman

This was my first time attending the API conference and this is not going to be the last. Enjoyed every bit of it. So informative and very well organized.

Amritbir Dulat
Thermo Fisher Scientific

What I appreciated the most was that the classes I attended were informative and helpful to my career path. I've enjoyed this more than other events because I felt like this embraced our Asian culture.

Shaunty Kleinschmidt
Northrop Grumman

I was able to directly resonate with a lot of the messages shared in today's conference, and that deep connection would not exist if the conference did not specifically focus and target API women.

Jessica Cheng
Northeastern University
